<p><b>Private Community</b> Restrict access to only logged-in members.</p>	

## Monetize

<p><b>One-Time Purchases</b> Sell access to your content and/or community as a one-time purchase.</p>	<p><b>Subscriptions</b> Generate revenue on a regular basis by charging members on a recurring basis.</p>
<p><b>Memberships</b> Create a membership for users to receive exclusive member only content.</p>	<p><b>Course Bundles</b> Select which courses are available within membership bundles available for one-time purchases or subscriptions.</p>
<p><b>Courses</b> Create and sell individual or multiple courses easily by creating the course and setting a price.</p>	<p><b>WooCommerce Store</b> Built-in styling to make WooCommerce look stunning!</p>

## eLearning

<p><b>Learner Dashboard</b> Create a customizable Learner Dashboard that gives students an at-a-glance access to all the relevant information they need and an easy way for them to pick up where they left off.</p>	<p><b>LMS (Learning Management System) Integration</b> Create and manage your online course with a dynamic course builder and built-in course progression.</p>
<p><b>Courses</b> Customize your courses with as many lessons, topics, quizzes, and assignments as you want. There's no limit to the flexibility of your learning environment.</p>	<p><b>Distraction Free Learning</b> Remove the navigation menu links from course pages, topics, lessons, and quizzes to create a distraction free learning format.</p>
<p><b>Advanced Quizzing</b> 8 quiz question types including Single Answer, Multiple Choice, Sorting, Matching, Fill-In-The-Blank, Free Text, Survey, Essay Questions and MUCH more.</p>	<p><b>Drip Feed Content</b> Deliver all your lessons at once, or choose to drip-feed (schedule) them over a specified amount of time resulting in a guided learning experience.</p>
<p><b>Lesson Timers</b> You can prevent students from moving through your courses too quickly. When the clock reaches 'zero', students are then permitted to move onto the next Lesson.</p>	<p><b>Intelligent Course Builder</b> Easily create courses using a drag &amp; drop course builder to create course categories, lessons, topics, assignments, and quizzes.</p>
<p><b>Flexible Prerequisites</b> Determine which courses are taken in a specified order to create a guided learning path for students.</p>	<p><b>Course Points</b> Learners can earn points as they complete courses. They can also use the points earned for unlocking new courses.</p>
<p><b>Course Reporting</b> See reports as students are going through your course content. View and download user course progress and quiz results.</p>	<p><b>Assignment Management</b> You can auto-approve or manually approve assignments. You can also leave private feedback on each assignment for the learner to see.</p>
<p><b>Expire Access</b> Allow students to have lifetime access to your courses, or expire access after a certain amount of time. This is a perfect way to encourage recertifications and renewals from your students!</p>	<p><b>Social Learning</b> You can bring knowledge sharing in real-time between students through forums and discussions to create a unique collaborative learning environment.</p>
<p><b>Certificates</b> Award official certificates based on quiz performance, completing a course, or both! Certificates can be 100% customized.</p>	<p><b>H5P Compatible</b> Create interactive content such as flashcards, charts, presentations, memory games, image hotspots, interactive video, timelines, and much more.</p>
